

Editorial

Dear readers,

In April 2020, the editorial team submitted the request for indexing the Journal of Accounting, Management and Governance (Revista Contabilidade, Gestão e Governança) to Elsevier's Scopus database. This is another internationalization activity that we hope to obtain results. Volume 23, number 2, of JAMG (CGG) contains eight articles. In this edition, seven articles published are from the Private and Third Sector Management & Accounting section and one from the Public Management and Accounting section.

We congratulate the authors and hope readers can enjoy the content produced.

Good reading!

Rafael Barreiros Porto
Editor-in-chief
Journal of Accounting, Management and Governance
